

Goodcabs is a two-year-old cab service company thriving in tier-2 cities across India.

- Operating in 10 cities, it focuses on supporting local drivers, delivering excellent passenger experiences, and fostering sustainable growth.

Problem Statement

- To achieve its ambitious 2024 performance targets, GoodCabs tasked the data analytics team with assessing:

Trip volume

Repeat passenger rate

Passenger satisfaction

Balance between new and repeat passengers

Project Objective:

- Analyze dataset to address key Business Questions on City - Level Trip Performance, Passenger Trends, Revenue Patterns, and Target Achievement.

Present findings in a clear and visually engaging manner to assist the Chief of Operations in making informed strategic decisions.
